Thank you for submitting a design for the city of Norman flag redesign! Your submission will be considered by a selection committee. If selected as a finalist your design may be refined and digitized under your direction. All finalist designs will then be put up for a public scoring along with other finalists. The top scoring design will be submitted to the Norman City Council for consideration as the new flag for our fine city.

You will be credited with your design but by submitting a design to this project you are forfeiting any and all copyrights to your design. Finalist designs may be refined or digitized for the purposes of voting and use, designs will not be finalized without their creator's approval. Please contain your design to a 3x5 ratio rectangle.

## FLAG DESIGN

While it is not required to follow the 5 guiding principles of successful flag design, we encourage you to be mindful of them:

1. Keep it simple
2. Be distinct
3. Avoid words or lettering
4. Use 2-3 colors
5. Use meaningful symbolism

## ARTIST STATEMENT

Explain the meaning and symbolism of your design as well as any other pertinent information the selection committee may need to know, attach additional sheets as needed.
